

2-way Pneumatic Tube System
90mm and 110mm
from
Hanter Ingenjörsteknik AB

CASHTRONIC®MVX

Cashtronic®MVX 2-way is introducing new standards of using pneumatic tube systems in the store environment :

Has new important operative functions.

All components are chosen very carefully to create user-friendly and reliable system.

The most flexible 2-way system on the market: it works with several types of stations and panels. Easy to upgrade and adjust in case of store layout changes.

Cashtronic®MVX 2-way is CE certified and components are tested by SP (Technical Research Institute of Sweden).

Minimizing risks by fast and secure transportation of the valuables.

CASHTRONIC®MVX 2-way

90mm 110mm

CASHTRONIC®MVX transports safely and fast to a low cost. Based on a customer's needs we design a system, which easily can be integrated in a store environment.

CASHTRONIC®MVX is a microprocessor controlled system. Main Control Unit has a multi-language display that shows all system information in clear text.

CASHTRONIC®MVX have a wide choice of stations for different store layouts. Stations are operated with help of LED signals and different types of panels. Stations can work both in manual and automatic mode.

CASHTRONIC®MVX stations can have customer adjusted design and solutions. For example light cubes, cable conduits and etc.

CASHTRONIC®MVX has 4 access levels to secure pneumatic tube system settings from unauthorized persons, which excludes errors in the system.

CASHTRONIC®MVX has 2-, 3-, 4-way diverters with precise positioning to optimize tube length of the system.

CASHTRONIC®MVX 2-way
